SMALL PILL. SMALL DOSE. SMALL PRICE.

Intelligent Readers will notice that

Tutt's Pills

are not "warranted to cure" all classes of diseases, but only such as result from a disordered liver, viz:

Vertigo, Headache, Dyspepsia, Fevers, Costiveness, Bilious Colic, Flatulence, etc.

For these they are not warranted infallible, but as nearly so as it is possible to make a remedy. Price, 35cts. SOLD EVERYWHERE.

Complete

Manhood

and how to attain it.

At last a medical work that tells the cause, describes the effects, points the remedy. This is a scientific treatise on the subject, artistically the most beautiful, medical book that has appeared for years; 96 pages, every page bearing a half-tone illustration in tint. Some of the subjects treated are Nervous Debility, Impotency, Sterility, Development, Varicocele, The Husband, Those Intending Marriage, etc. Every man who would know the grand truth, the plain facts, the old secrets, and the new discoveries of medical science as applied to married life, who would atone for past follies and avoid future pitfalls, should write for this wonderful little book. It will be sent free, under seal, Address the publishers.

DR. VIRCHOW TALKS.

What Germany is Doing to Prevent a Cholera Outbreak.

EVERY METHOD IS BEING TAKEN

To Suppress Another Epidemic—Ho Assures This Country That Little May Be Feared From Germany. Will Study Our Quarantine System. The Precaution Against Cholera is to Be Careful What You Take in Your Stomach.

New York, March 17.—Dr. Hans Virchow, son of Prof. Rudolph Virchow, the distinguished professor of anatomy at the university of Berlin, and himself one of the best of Germany's cholera experts, arrived here yesterday on board the Lahn. Then the professor goes to Chicago, where he is to represent his government as a commissioner of public education of the World's Fair.

The professor received a reporter very cordially, and began to talk freely: "It is my opinion, said he, that you Americans have less cause to fear that the disease will be brought over again from Germany this year than last. We are doing all we can to make it impossible for it to break out at Hamburg and other cities which were devastated last autumn. At Hamburg we are building new water works, and these will soon be completed. The city water will be taken from a point much higher up the Elbe than it has been. Examination has disclosed the fact that the water there is pure and contains no germs of disease. Care will be taken that it in no way becomes infected and after its arrival in the city it will be subjected to a filtering process which will, we hope, make it impossible to do injury."

"Is the German government taking measures to maintain a strict quarantine?"

"Yes. The experience of last year has been a warning to us all and you may depend upon it that the utmost precautions will be taken, not only to keep cholera out of Germany, but to prevent its introduction elsewhere as the result of our own negligence. We know more about cholera now than we did six or eight months ago. If men can learn anything by experience certainly we ought."

"While here I shall try and ascertain what the United States is doing to prevent the return of the pest. I hope to meet several of your eminent physicians as well as your health officers, and I have no doubt I shall learn from them how they succeeded in warding off the scourge so splendidly when it was at your very doors."

"I have not the time to go into an extended discussion of all the means of preventing and treating the disease when it has seized a patient, but I will say in general terms that if the poison can be kept out of the stomach there is very little if any danger of contracting the disease. Be careful what you eat and see that it is properly cooked. Heat is the annihilator of the germ, you know."

"Are France, Austria and other European countries improving their quarantine?"

"I have been told so, but I have had no chance to make a personal examination of the details in these countries. I can speak for Germany, I think, when I say it will be through no lack of vigilance on the part of her government if cholera reaches you or becomes epidemic there."

"A BANKER ARRESTED, Charged With Connection With a Big Defalcation." GUANAJUATA, MEXICO, March 17.—A sensation has been caused by the arrest and imprisonment of Felipe Osante, a prominent and wealthy merchant of this city, on the charge of being connected with the recent defalcation in the Guanajuata branch of the National Bank of Mexico. The shortage was first discovered several days ago and experts were at once placed at work upon the books of the bank. The amount of shortage is now placed at \$400,000. There is a number of prominent people implicated in the systematic robbery and all are now under surveillance. They will be arrested when the proper time comes.

The business men of Mexico are very suspicious of all banking institutions and the startling disclosures in connection with the branch bank in this city are having a serious effect upon banking affairs in Mexico.

WILL MAKE A SENSATION. The Veteran Crop Statistician at Washington to Be Removed.

New York, March 17.—A Washington special to a morning paper says: Secretary of Agriculture Morison is about to make an appointment in his department which will cause a sensation. The veteran statistician of the department, Mr. Alfred Dodge, who gives the country the monthly crop report, will be retired and his place will be filled by Labor Commissioner Henry W. Robinson, of Michigan. The appointment will be announced early next week.

The President's Callers.

WASHINGTON, D. C., March 17.—St. Patrick's Day and the cabinet meeting were taken advantage of by President Cleveland this morning and he disposed of the few callers who saw him in very short order. All the visitors came between 10 and 11 o'clock and consisted chiefly of senators and representatives, including Senator Berry, of Kansas, Voorhees and Turpin, of Indiana, Mills and Cole, of Texas, Stanford, California, and Representatives Bynum, of Indiana, Hicks, of Pennsylvania, and Amerman, of Pennsylvania, with John J. O'Boyle, of Scranton, who wants the postmaster's office there, and John J. Fahy, sheriff of Lackawanna county, Pennsylvania.

Will Name His Own Office.

WASHINGTON, D. C., March 17.—Representative Rogers, of Arkansas, whose friends endeavored to have Mr. Cleveland appoint him attorney-general, has refused the assistant attorney-generalship for the interior department. He is a candidate for the office of solicitor general.

Called on Mrs. Cleveland.

WASHINGTON, D. C., March 10.—Princess Kaiulani, of Hawaii, with her chaperone, paid a pleasant social call on Mrs. Cleveland to-day.

War on the Pool Rooms.

New York, March 16.—War to the knife has been declared by the pool room combine against the race track magnates. The first point of attack will be the Ives law, limiting betting on

the race to the race courses. The lawyer acting for the pool room keepers said to-day: "We are preparing to attack the constitutionality of the Ives law. All the pool rooms will remain closed meanwhile."

THE ENGINEERS' SIDE

Of the Ann Arbor Strike—Chief Arthur Issues a Statement of the Matter.

TOLEDO, Ohio, March 17.—Grand Chief Arthur and Grand Master Sargent have furnished the following statement to the Associated Press as to the reason why the plan for a settlement of the Ann Arbor strike agreed upon between President Ashley and William Kirby of the state railroad commission, was not accepted by the engineers and firemen:

"Mr. Kirby gave us to distinctly understand after his first conference with Mr. Ashley that the engineers and firemen who went out on strike would be restored to their former positions without prejudice; that he wanted his old men back again and that was settled if we could agree upon the rate of wages. After submitting our proposition of wages, it was rejected by Mr. Ashley. Mr. Kirby returning with the rate which Mr. Ashley was willing to grant, we took them up, discussed them and submitted as our ultimatum the present rates embodied in the agreement signed by Mr. Kirby and President Ashley."

"On reading the document over carefully we found that Mr. Kirby, of his own volition, without consultation with Mr. Ashley, inserted an article reading as follows:

"Third—It is my decision that the late employees of the operating department of the Toledo, Ann Arbor & North Michigan Railway Company who may desire to re-enter its service shall make application in writing to the superintendent of motive power at Owosso, Mich.; applications to be considered in the order received and such applicants when notified shall be assigned to duty without prejudice."

"This clause was contrary to instructions we gave Mr. Kirby as it would place our men entirely at the mercy of the master mechanic in whom Mr. Kirby stated to us he had no confidence whatever and intended to have him removed. We urged Mr. Kirby as he had inserted the foregoing of his own volition and without consultation with Mr. Ashley to insert in lieu thereof the following:

"Article 3. It is my decision that the late employees of the operating department of the Toledo, Ann Arbor & North Michigan railway company who who went out on a strike shall be reinstated to their former positions without prejudice."

"In that case we would accept the agreement and declare the strike off. He had another conference with Mr. Ashley and returned informing us that Mr. Ashley would not make the change. After which the committee representing the engineers and firemen had a conference with President Ashley and his son, the general manager, at which they requested them to make the change and they would sign the agreement and end the strike. They declined to grant the request, informing the committee that the matter had been thoroughly discussed by Mr. Kirby and themselves, which proved conclusively to us that Mr. Kirby had misrepresented the case to us."

"All honorable efforts having failed to effect a settlement, nothing remained for us to do but to continue the strike. We are still ready and willing to leave that question in dispute to any three general managers in Toledo and abide by the decision. We regret exceedingly the necessity of continuing the struggle, but, in justice to the men who represent, we could not do otherwise."

TOLEDO, Ohio, March 17.—The fire which broke out early this morning in the Wheeler Opera House burned itself out. The walls fell at 2 o'clock filling the streets with flying debris and fire. Thousands of wires were brought to the ground, catching many persons with them. William McClosky's shoulder was dislocated. The loss on the opera house is \$80,000, insurance \$37,000. Other losses will make a total of about \$200,000.

To Demand Harris' Pardon.

New York, March 17.—A mass meeting is to be held in Madison Square Garden next week, and a popular demand will be made on Governor Flower for a full and free pardon for Carlyle W. Harris. One of the most famous lawyers in New York—it may be Joseph Choate—will preside. Harris' counsel think the popular voice will cry down Recorder Smyth's decision refusing a new trial.

A Cure For Pneumonia.

Pneumonia and kindred affections of the lungs can be easily prevented and cured by using an absolutely pure stimulant such as is used and recommended by the best physicians. Your doctor will tell you that Klein's "Silver Age" or "Duquesne" Rye Whiskies are absolutely pure and the best stimulant in the world to fortify the system against the inclemency of the weather. Silver Age sells for \$1.50 per quart and Duquesne at \$1.25. Headquarters, MAX KLEIN, 82 Federal Street, Allegheny, Pa. Send for complete catalogue, mailed free.

A Horrible Railroad Accident

Is a daily chronicle in our papers; and the death of some dear friend, who has died with consumption, whereas, if he or she had taken Otto's Cure for Throat and Lung diseases in time, life would have been rendered happier and perhaps saved. Heed the warning! If you have a cough or any affection of the throat and lungs call at Logan Drug Co., sole agent, and get a trial bottle free. Large size 50c.

Rheumatism Quickly Cured.

Three days is a very short time in which to cure a bad case of rheumatism, but it can be done if the proper treatment is adopted, as will be seen by the following from James Lambert, of New Brunswick, Ill.: "I was badly afflicted with rheumatism in the hips and legs, when I bought a bottle of Chamberlain's Pain Balm. It cured me in three days. I am all right to-day, and would insist on everyone who is afflicted with that terrible disease to use Chamberlain's Pain Balm and get well at once." 50-cent bottles for sale by druggists.

LADIES

Needing a tonic, or children who want building up, should take

BROWN'S IRON BITTERS.

It is pleasant; cures Malaria, Indigestion, Biliousness, Liver Complaints and Neuralgia.

Bucklen's Arnica Salva.

The best salve in the world for cuts, bruises, sores, ulcers, salt rheum, fever sores, tetter, chapped hands, chilblains, corns and all skin eruptions, and positively cures piles, or no pay required. It is guaranteed to give perfect satisfaction or money refunded. Price 25 cents a box. For sale by Logan Drug Co.

Children Cry for Pitcher's Castoria.

FINANCE AND TRADE.

The Features of the Money and Stock Markets.

New York, March 17.—Money on call easier, ranging from 7 to 1 per cent, last loan 2 per cent, closed offered at 2 per cent. Prime mercantile paper 6 1/2 per cent. Sterling exchange firm at \$1 8 1/2 at 80 1/2. Sales \$76,500 shares.

The underdone of speculation at the stock exchange to-day was decidedly stronger. Although several sharp reactions occurred the trend of prices was upwards, and at intervals there was an approach to buoyancy in certain parts of the list. The dominant influence was the marked change for the better condition of the local money market. Northern Pacific preferred stock, the greatest advance, 4 1/2 per cent, and it came second on the list in point of activity. Sugar was the only stock which got ahead of it. The advance otherwise was equal to 1/2 to 3/4 per cent, the industries, Manhattan, the grangers, New England and Missouri Pacific in the lead. The highest quotations of the day were generally attained around delivery hour. There was a liberal buying for both accounts. The shorts were disconcerted by the plentiful supply of funds and covered freely. The market closed steady in tone.

Railroad bonds were moderately active. Sales \$1,246,000.

Government and state bonds dull.

BONDS AND STOCK QUOTATIONS—CLOSED HIGH.

Breadstuffs and Provisions.

CHICAGO, March 17.—The crop killers working with unabated energy, the dry, cold, and another cold wave predicted, and a few brokers buying both May and July for the clique, all combine to boost wheat to-day. The advance from the low price of the day, 1 1/2 cents, to 1 3/4 cents, closed steady with a net gain of 1/2 cent over last night. The shorts covered freely. It is not alone the crop conditions which have shorts, but the attitude and supposed strength of the clique, contributes materially to their cause.

In the corn crowd, Ream was a seller yesterday he was a most active bidder. It shows a decided loss of 1/2 per cent.

There was little trade in oats. Provisions, there was little interest shown in anything but lard, which is a shade higher.
